#### Data Flow Diagrams:

A data flow diagram (DFD) is a visual representation of the information flow through a process or system. DFDs help you better understand process or system operation to discover potential problems, improve efficiency, and develop better processes. A data flow diagram (DFD) is a **graphical or visual representation using a standardized set of symbols and notations to describe a business's operations through data movement.**

Example: DFD Level 0 (Industry Standard)
